GVS storage logistics

High security vault Tallinn

Independent of banks, discreet, non-bureaucratic and flexible

- Buy or sell in-store, by phone or online, 24/7, in all major currencies
- All stored precious metals are fully insured and clearly documented in your storage contract
- Enjoy simple and customized access for multiple parties, including in the event of unforeseen circumstances
- Secure shipping and physical delivery options are available at all GVS branches
- Benefit from flexible transfers among 16 international trading hubs
- Take advantage of tax-free sales after the designated holding period

The highest level of security for your precious metals

- Equipped with custom-made steel safes from Wertheim GmbH
- 24/7 on-site security service
- Advanced security technology by Siemens, certified by VSÖ and VdS
- Access strictly limited to authorized individuals through multi-person control systems
- Guaranteed full compliance with all data protection regulations
- Complete elimination of risks associated with traditional safe deposit box systems

Exclusive security features reserved for GVS clients

- Over 20 years of experience in high-security storage
- Biannual audits of all client holdings conducted by certified tax experts
- Simultaneous physical inventory counts for maximum transparency
- Independent custodian and operations, completely free from credit and trading risks
- Your assets and personal data are never displayed online
